Low-voltage electricity installations in a sauna

Based on CENELEC HD 60364-7-703:2005

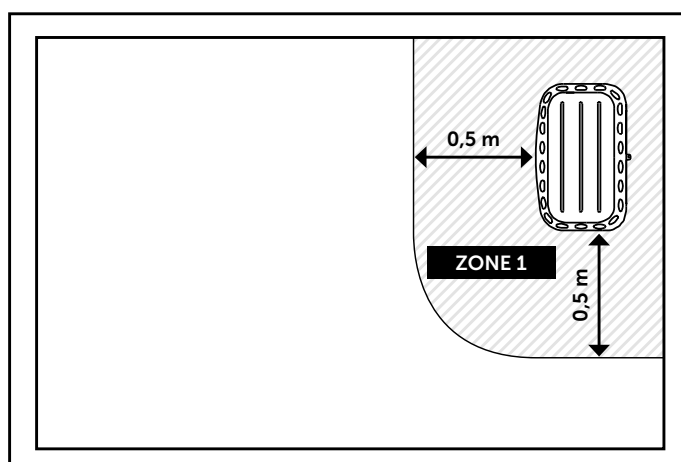

ZONE 1

Can only be used to install a sauna stove and electrical devices related to its use. Optical fibres, such as Cariitti Sauna Stove Lens Fibre 1532633, can be installed in zone 1.

ZONE 2

There are no special requirements for heat resistance of electrical devices.

ZONE 3

Electrical devices must be able to withstand ambient temperature of at least 125°C and cord insulation must be able to withstand temperatures of at least 170°C (there are also special requirements for wiring).
